ABOUT US

Baling Wire LTD is a Turkey-based manufacturer with over **40 years** of experience in high-quality wire production.

Operating from a **3,000 m²** production **facility** with an annual capacity of **15,000 tons**, we deliver reliable and customized wire solutions to Europe, the United States, Africa, and global markets.

With the establishment of **Baling Wire Eu Oy (2026)**, our company has expanded its presence in the European market, strengthening our logistics capabilities and customer support network.

We **combine manufacturing flexibility**, international expertise, and **consistent** quality standards to meet the needs of a wide range of industries.

MANUFACTURING CAPABILITIES

40+
YEARS OF EXPERIENCE

3,000
SQM PRODUCTION AREA

15,000
ANNUAL TONS CAPACITY

Our manufacturing facility in Turkey is built for precision and efficiency, delivering consistent quality and high-volume production to meet global industrial standards.

OUR PRODUCT RANGE

- Baling Wire
- Bale Wire
- Black Annealed Wire
- Galvanized Wire
- Roll Wire
- Cut & Loop Wire
- Single Loop Wire
- Double Loop Wire
- Flat Wire (Quicklink Ties)
- Tomato Hook / Greenhouse Suspension Wire
- Customized Formed Wire Product

GALVANIZED WIRES

Designed for durability and resistance, perfect for use in outdoor environments or heavy-duty applications.

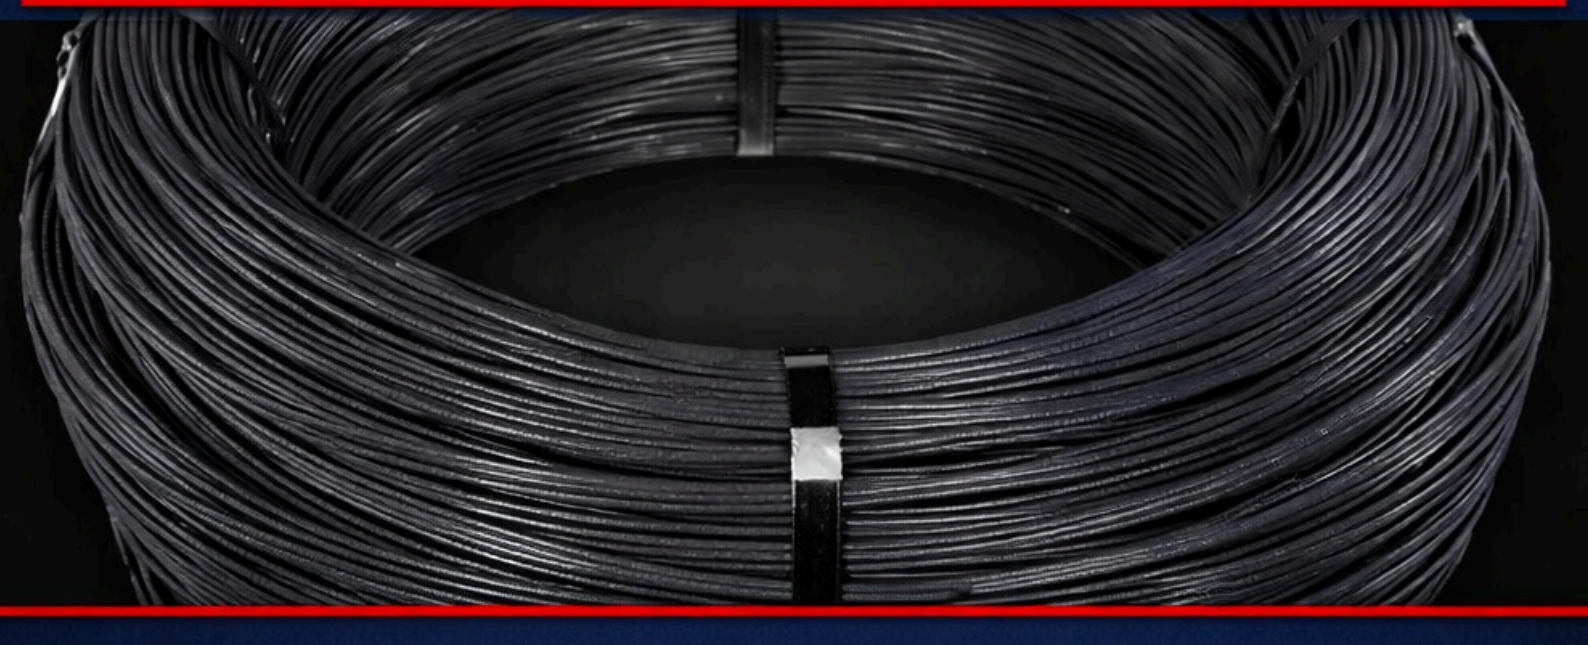

TECHNICAL SPECIFICATION	VALUE / DESCRIPTION
Product Type	Hot-Dip Galvanized Bale Wire
Material	High Carbon
Available Diameters	2.20 mm – 4.00 mm
Tensile Strength	1750 – 1850 N/mm^2 (High break resistance)
Zinc Coating Thickness	60 – 120 g/m^2 (Customizable)
Corrosion Resistance	500+ hours in salt spray test
Elongation	8% – 12%
Surface Coating	Hot-dip galvanized, uniform coating
Coil Weight Options	25 kg · 40 kg
Packaging Options	Stretch-wrapped · Palletized · Big-box
Compliance Standards	EN 10218 • EN 10270-1
Operating Temperature	–30°C to +60°C
Application Areas	Agricultural balers · Industrial tying
Color	Metallic grey (natural galvanized finish)

BLACK ANNEALED WIRE

Soft, flexible, and easy to handle — ideal
for packaging, construction, and recycling applications.

TECHNICAL SPECIFICATION	VALUE / DESCRIPTION
Product Type	Black Annealed Wire
Material	Carbon Steel (SAE 1006-1008)
Available Diameters	1.20 mm – 4.00 mm
Tensile Strength	300 – 400 N/mm^2 (Higt annealed finish)
Surface Coating	Uniform black oxide layer
Elongation	12% – 18%
Coil Weight Options	25 kg • 40 kg • 50 kg
Packaging Options	Stretch-wrapped • Palletized • Big-box
Application Areas	Construction • Recycling • Packaging
Color	Matte black (annealed finish)

SINGLE LOOP WIRE

High-strength and precision-formed wire for baling and industrial applications.

TECHNICAL SPECIFICATION	VALUE / DESCRIPTION
Product Type	Single Loop Wire
Material	Carbon Steel (SAE 1006-1008)
Available Diameters	2.00 mm – 4.00 mm
Tensile Strength	350 – 450 N/mm^2 (High break resistance)
Surface Coating	Black annealed or galvanized finish
Loop Type	Precision-formed single loop
Packaging Options	Stretch-wrapped • Palletized • Big-box
Application Areas	Baling • Recycling • Industrial tying
Color	Metallic grey or matte black

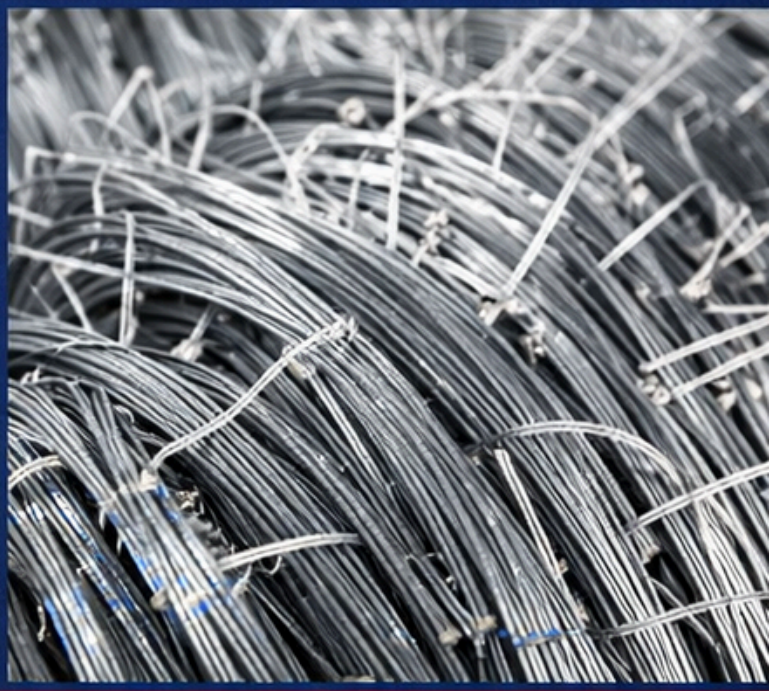

QUICK LINK WIRE

High-tensile and easy-to-install wire for quick fastening and industrial applications.

TECHNICAL SPECIFICATION	VALUE / DESCRIPTION
Product Type	Quick Link Wire
Material	High Carbon
Available Diameters	2.00 mm – 4.00 mm
Tensile Strength	1750 – 1850 N/mm² (High break resistance)
Surface Coating	Galvanized or black anneeled finish
Link Type	Precision-formed quick link
Packaging Options	Stretch-wrapped • Palletized • Big box
Application Areas	Fastening • Construction • Recycling • Industrial tying
Color	Metallic grey or matte black

OUR GLOBAL FOOTPRINT

EXPANDING HORIZONS

Rooted in Turkey and strengthened by our Nordic base, Baling Wire **Eu Oy**, BW Europe connects industries across continents.

With production excellence and logistics hubs in **Europe** and **Africa,** we deliver reliable wire solutions to global partners — cuntaining local respecible with international reach.

Our expanding network reffects our commitment to innovation, sustainability, and seamless service across borders.

QUALITY & SUSTAINABILITY

COMMITMENT TO QUALITY AND THE ENVIRONMENT

At BW Europe, quality and sustainability are the cornertones of our production philosophy. We proudly hold **ISO 9001** and **ISO 45001** certifications, ensuring consistent quality management and occupational safety across all operations. Our products con-comply with CE standards, reflecting our commitment to European excellence and reliability.

Beyond standards, we take responsibility for the planet. By generating our own electricity through **solar energy**, we minimize external energy dependence and maintain a **low carbon footprint.** Every wire we produce embodies our dedication to **clean** manufacturing, resource efficiency, and environmental integrity. Regular **CBAM** tests confirm our adherence to carbon emission standards, underscoring our proactive approach to mitigating climate impact.

CE ISO 9001 ISO 45001 ISO 14001
